

Controllers

E-touch compact

(Controller of HST and YC/YCII series is E-touch compact-YC,
Controller of HSA, TSXA and SXB series is E-touch compact II,
Controller of YAII series is E-touch compact.)

Target model
HSA series
HST series
YC/YC II series
YA II series
TSXA series
SXB series

PAT.

Loaded with Convenient New Functions

● ECO Monitor

Displays the robot's usage of electricity and air in real-time to assist operators with energy-saving measures.

● Predictive Maintenance

Continuously monitors robot during operation and alerts operator with a message if potential trouble symptoms are detected. This function elevates maintenance from preventative to predictive.

● Enhanced Manual Operation Screen

- 1) Manual controls for all axes are grouped on one screen for easier operation.
- 2) For easier reference, operators may now access the robot control guide even while using the manual operation screen.

● Flowchart Display

If an operation goes awry (such as when run conditions are not met at the start of auto operation) rather than just read an error message, the operator can open a flowchart screen to check conditions quickly and speed up troubleshooting.
